Regional Space Applications Programme for Sustainable Development (RESAP)

Guided by ESCAP Resolution 68/5 Asia-Pacific Plan of Action for Space Applications and GIS for Sustainable Development (2012-2017)

Asia-Pacific Plan of Action for Space Applications (2018-2030)

See <http://www.unescap.org/events/21st-session-intergovernmental-consultative-committee-icc-regional-space-applications>

Vision

By 2030, all countries in the Asia-Pacific region can access and use space science, technology and their applications to the fullest extent to meet their individual and regional needs for achieving the goals set out in the 2030 Agenda for Sustainable Development.

Mission

ESCAP, together with its member countries and the RESAP network, will work towards this vision by implementing the **Regional Space Applications Programme for Sustainable Development (RESAP)** as the Asia-Pacific region's central framework for the coordination and strengthening of regional space cooperation in support of the Regional Roadmap for Implementing the 2030 Agenda for Sustainable Development.

Regional Cooperation and RESAP

- APRSAF
- APSCO
- ASEAN-SCOSA
- UNOOSA
- GEO, UN-GGIM(-AP)
- SGAC
- IAF
- Bilateral and trilateral cooperation

Invitation to all Stakeholders

Let's work together to realize the vision that

By 2030, all countries in the Asia-Pacific region can access and use space science, technology and their applications to the fullest extent to meet their individual and regional needs for achieving the goals set out in the 2030 Agenda for Sustainable Development.

THANK YOU!

Werner Balogh

Chief, a.i., Space Applications Section
