Follow up of APRSAF-23

APRSAF-23 Suggestions and Comments

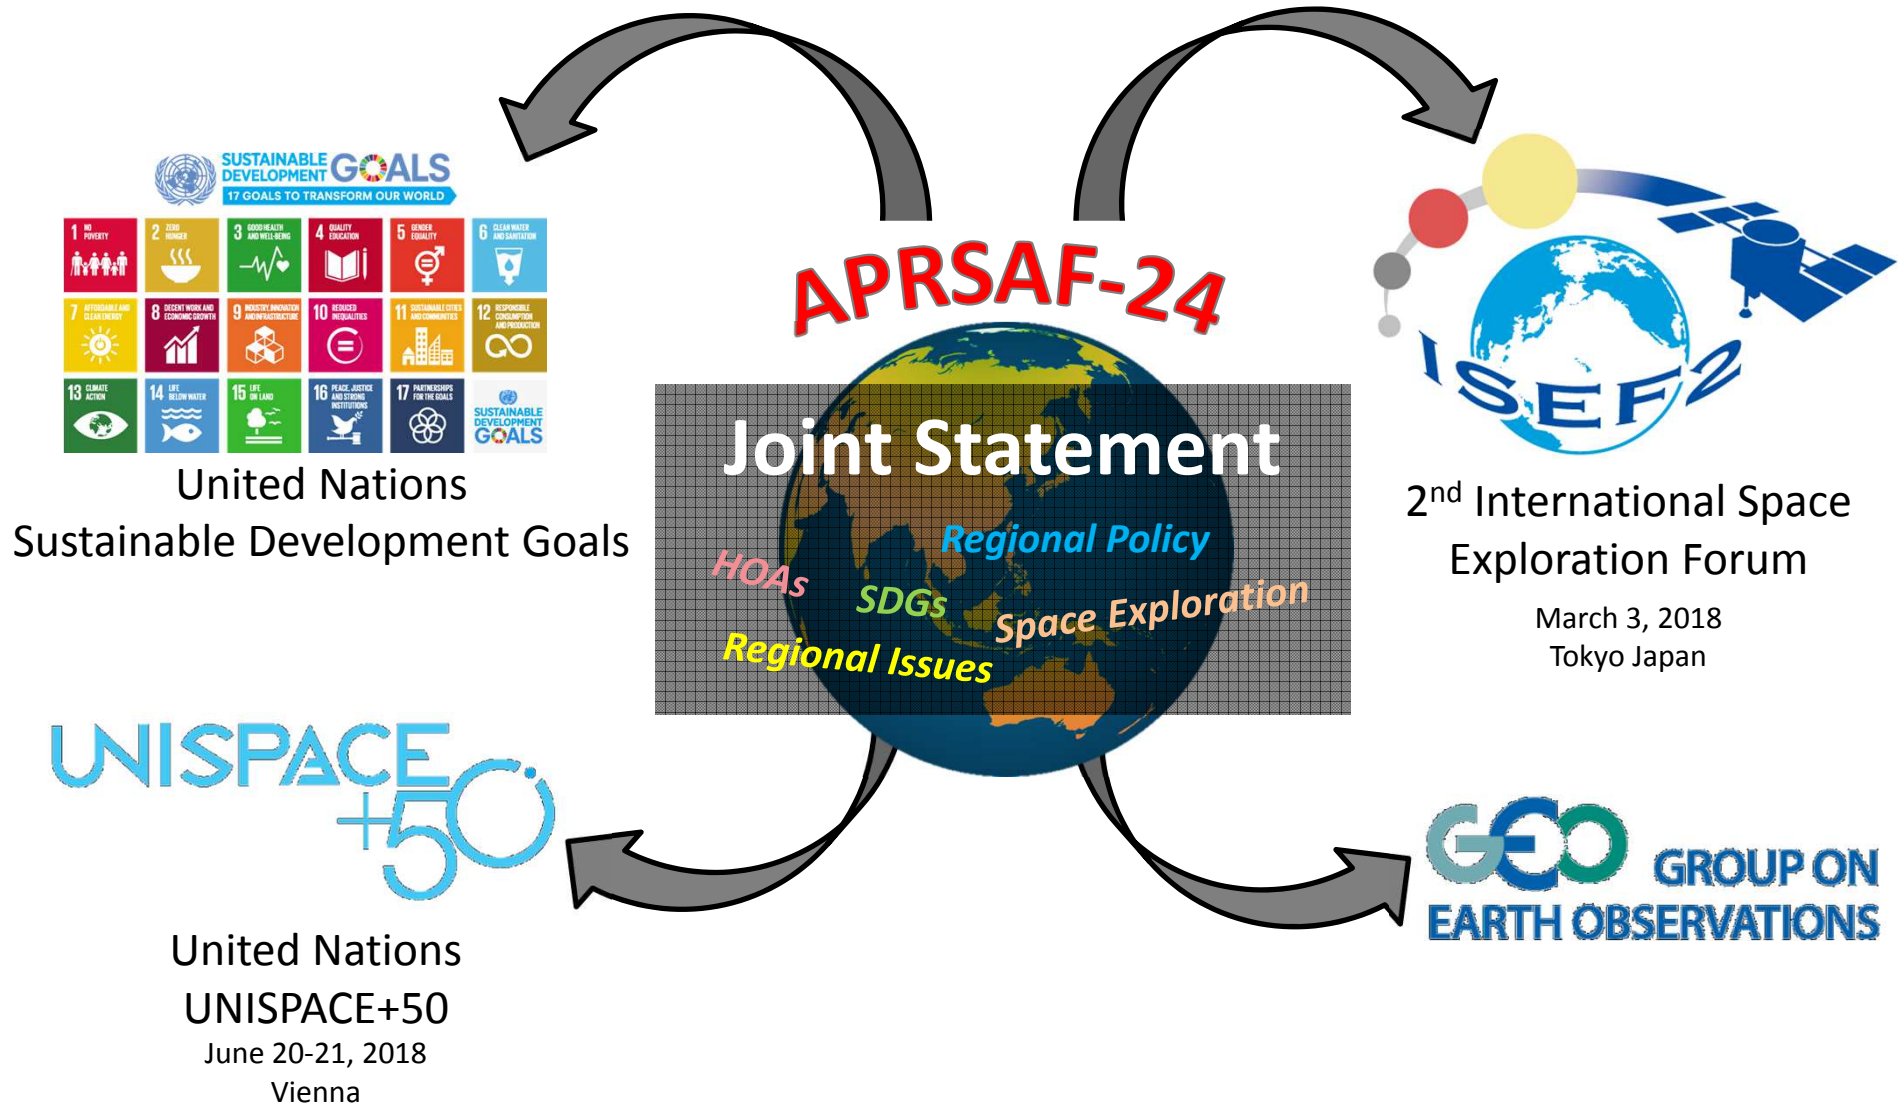

- (1) Recommend to discuss space policy
- (2) More involvement from private sector
- (3) Expand networking
- (4) Invite more participants from Pacific Islands and South American countries
- (5) Further promote cooperation to transfer technologies
- (6) Encourage to promote new initiatives
- (7) Further promote space education initiatives

APRSAF-24 Follow up

- (1) “**Space Policy Session**”: discussion on national requirements and space policy
- (2) “**Space for Future Society Session**”: invite private sector to discuss contribution of space technology to Smart Cities
- (3) Expansion of discussion content and interactive sessions for expanding network
- (4) Invitation letters were sent to distinguished countries
- (5) WG activities to promote cooperation
- (6)&(7) New education programs are to be established (ex. small satellite development program)

Innovation of APRSAF-24 Program

Innovation of APRSAF-24 Program

- ◆ Expansion of discussion content

Space Technology Applications → LEO and Beyond-LEO activities

- ◆ Interactive sessions

Panel discussions of recent hot topics

- ◆ Importance of High Level Forum

Participation of HOA members and government high-ranking officials
