

Thailand's Vision:

Security – Prosperity – Sustainability

- Space for Societal Security – Food, Water, Health, Land, Trafficking, etc.
- Space Economy – Global Space Industry Value Chain, Space and Aviation Industrial Linkages, etc.
- Space for Sustainability – Natural Resources and Environment, Social Equity, Disparity Reduction, etc.

Principles, Ways and Means

- Innovation Based and Value Creation
- Clustering + Connectivity + Co-creation
- National Space Strategy 2016-2035
- Beyond Geo-Informatics but toward Area-based/Geo-Intelligence Platform for Actionable Intelligence Policy (AIP)
