

## *Space Policy Workshop*

### *Concept Note*

#### **Workshop on “Space Policy Perspectives for ‘Governance in Space’”**

Organizer	The University of Tokyo Graduate School of Public Policy, Japan
Co-organizer	National Institute of Advanced Studies (NIAS), India
Date	13 November 2017 14:30-17:55
Venue	Sheraton Grand Bangalore Hotel at Brigade Gateway (Room: Neptune)
Contact	Dr. Yuri TAKAYA yuritakaya@hotmail.com

**Overview**                      This workshop, jointly organized by the University of Tokyo Graduate School of Public Policy, Japan (as part of Graduate Leader Program for Social Design and Management), and the National Institute of Advanced Studies (NIAS), India, aims to provide an overview of space policy perspectives in the Asia-Pacific region and to explore further possibilities for international cooperation in the region.

                                            The workshop program consists of two sessions: Perspectives of National Space Policy and Latest Space Programs [Part I]; and Panel Discussion on “Space Exploration: Emerging Issues of Space Policy and Possibility for Collaboration.” These sessions will share a vision toward future exploration as well as identifying pressing issues such as space debris mitigation [Part II].

                                            Distinguished speakers are invited from various countries in the region to share their views on desirable approaches to space exploration.

                                            The next day, November 14th, an additional workshop for space policy studies under academic cooperation between the University of Tokyo and the NIAS is to be held at the NIAS. For technical aspects of programme and confirming attendance/participation for the event of 14th, please inform:
