

STAR Program starts!!!

STAR Program Office opened in the Sagamihara campus on April 1, 2009.

JAXA's Sagamihara campus has a nice view of Tanzawa Mountain, is surrounded a lot of green, wild birds are chirping, and cherry blossoms are almost full bloom around here. Spring is coming. Do you know? It is the best season in Japan.

We have been preparing to welcome participants of the STAR Program, and ready to support you for studying and living comfortably in Japan.

Why don't you come and join us now? We are looking forward to seeing you!

Mr. Tsuji, Senior Engineer

Ms Hosoya

27th International Symposium on Space Technology and Science(ISTS) will be held at Tsukuba International Congress Centre from July 5 to July 12, 2009.

On Friday, July 10, Mr. Tsuji, Senior Engineer, will present "System engineering approach to a new micro satellite for Asia Pacific, MICRO-STAR", and a lot more about other satellite related topics too. If you are in Japan, it will be convenient to get many valuable and useful information there.

For more information about 27th ISTS ➡ <http://www.ists.or.jp/index.html>
