

STAR Program Opening Ceremony was held on June 18, 2009

STAR Program Opening Ceremony was held on June 18, 2009 on JAXA's Sagamihara campus.

The ceremony was opened by welcome remarks of Mr. Kajii, Associate Executive Director of JAXA. Dr. Inoue, Executive Director of JAXA and Mr. Yokota, Counselor of Secretariat of Strategic Head quarters for Space Policy gave an address each. Mr. Tsuji, Senior engineer introduced about STAR Program, then all participants, who were from LAPAN (Indonesia) and GISTDA (Thailand), introduced themselves and expressed their expectations.

Our delight, we had many internal and external attendants including attaches of Indonesia, Thailand, Malaysia and Korea came to this ceremony and exchanged greetings

Shortly after the ceremony, a reception party was given to celebrate the opening. The attendants were acquainted with each other and hoping this occasion would help future activities, not only for STAR Program but also for all of them.

Welcome to Japan! GISTDA's participants arrived at the Sagamihara campus.

Two participants (Mr. Yossavin Sombutpanich and Mr. Jayranon Plaidoung) from GISTDA (Thailand) arrived at the Sagamihara campus just before the STAR Program opening ceremony and they made their appearances.

It was pleasure to have two more participants for STAR Program because we (including LAPAN's participants) were looking forward to working with them.

The studies for Micro-STAR and EO-STAR Development are becoming more active and the interesting seminars will be held steadily for two months.
